TOH WEI CENG
2020-2022

HELLO

Hello, I am WEI CENG, maybe you also have a WEI CENG with the same name by your side. But I may be more special. (Shake hands) In 2001, I accidentally fell into the earth, met a bunch of strange people, and lived tremblingly to this day. I have a very high passion for animation and vfx. The distance to be able to make works that fly around, fly around, fly around... is getting closer and closer, and I look forward to creating works that will make everyone's eyes shine in the future.

They or We

The man and the bear in the middle have merged into one, which means that no matter whether it is a polar bear or other creatures, if this environment or this ecology is destroyed, it will eventually be inseparable from us.

The main expression is the current ecological impact of this climate. In fact, the most obvious example we can see is the problem of polar bears. It is not only polar bears, but there are many possibilities that we have not found, or are relatively unobtrusive.
