About Me

I'm a student from S.U.S Academy at Johor ,Malaysia. In my design , i tend to prefer freestyle to fixed style, more flexible. I think it can make me more possibility on my artwork or my skill and also can urge oneself to always improve more skills. My inspiration come from activity or thing from my life.

Reborn .

Transperent for the power is
using different color by different
layers , the most important is
white color for taht.

is a fictional character in the anime and manga series Reborn! created by Akira Amano. In the series, Lambo is an infant assassin who goes to Japan to kill the hitman Reborn.

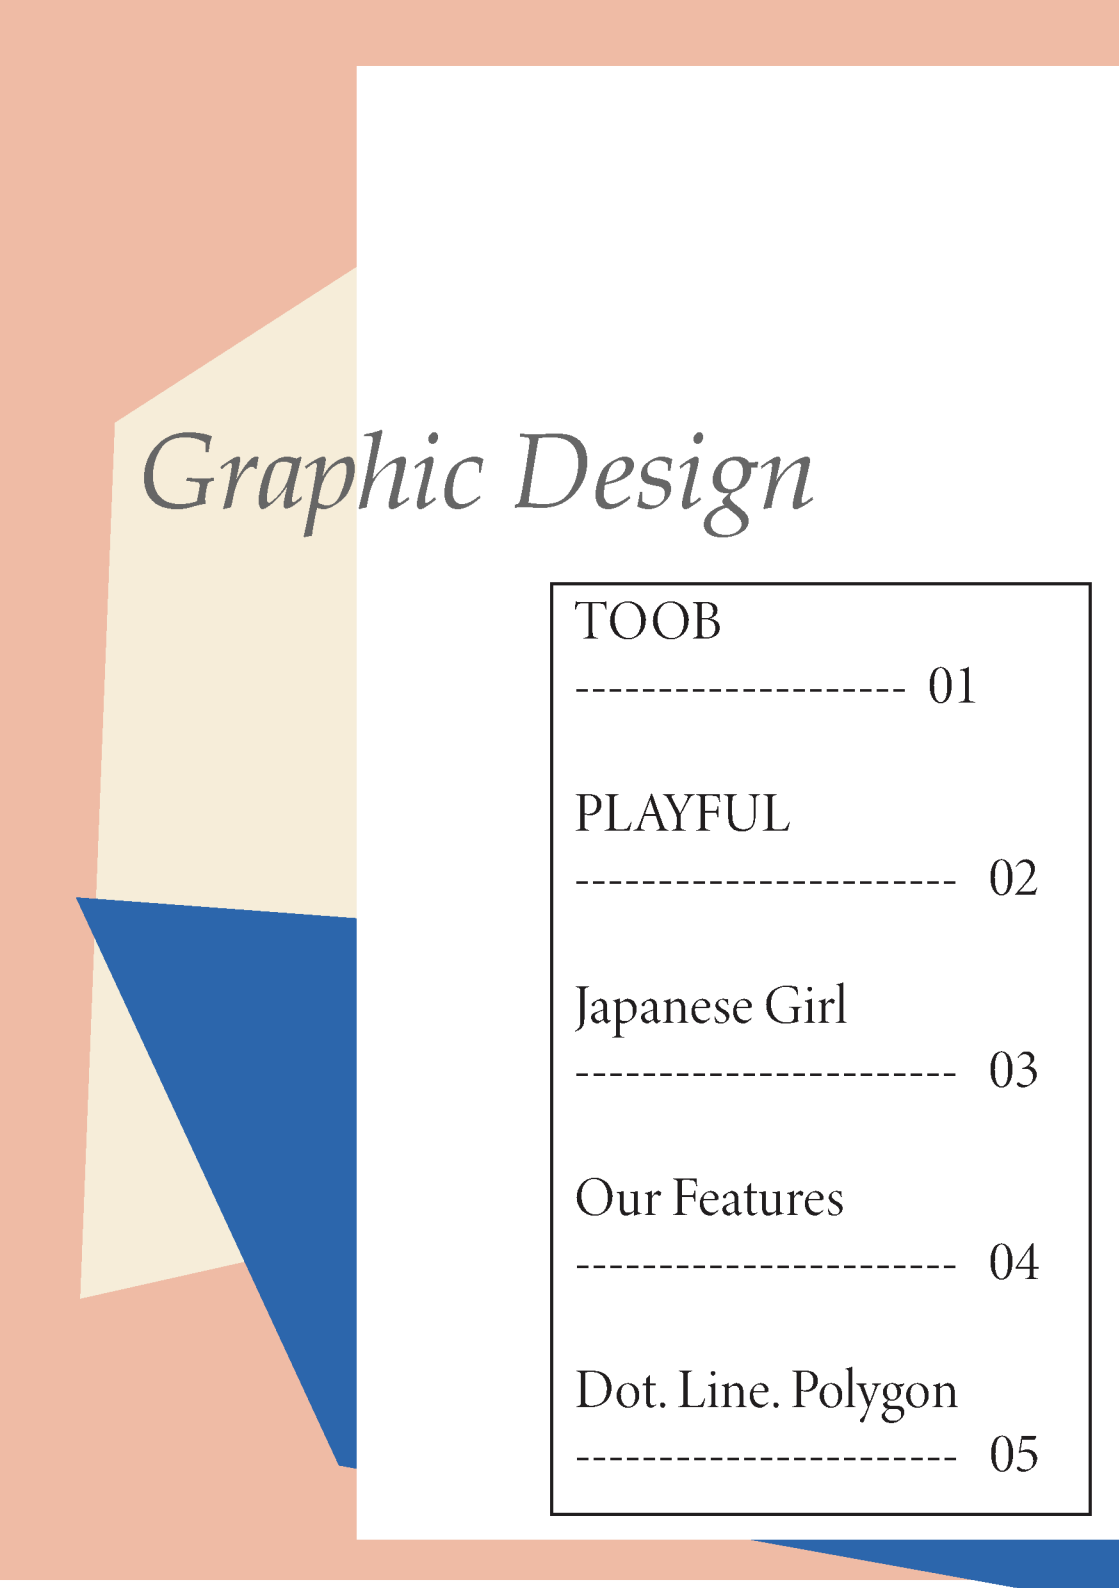

A girl of England . I find her visual at google and draw it. This is most challenge for digital drawing tome. The colour and tool for braush is hard to control. This art work can learn about that after complete it.

SLEEPY

APP-----

01

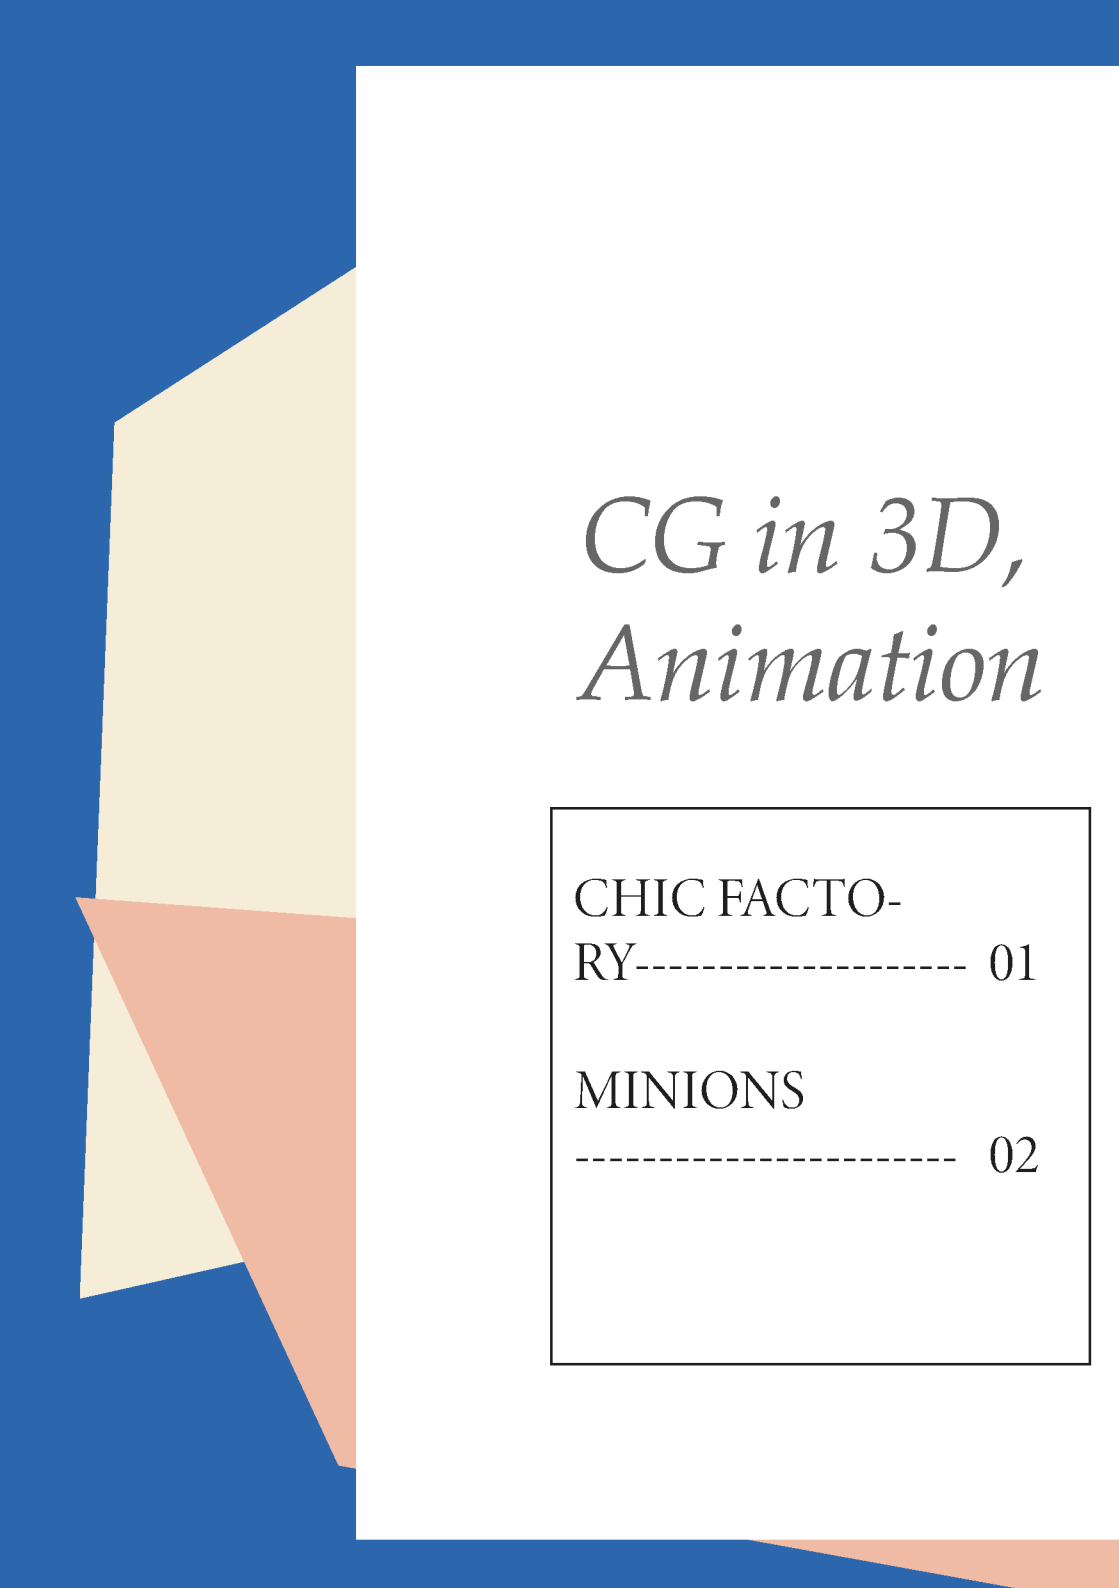

Nowadays, everyone has a hard time falling asleep. They rely heavily on social media or swipe their mobile phones to fall asleep. The quality of sleep is not good. So imagine an app that can accompany people to sleep.

modelling

This artwork is using the 3DMAX software to complete it. I was separated it with 2 polygon. One part is character body and second part are the weapon.

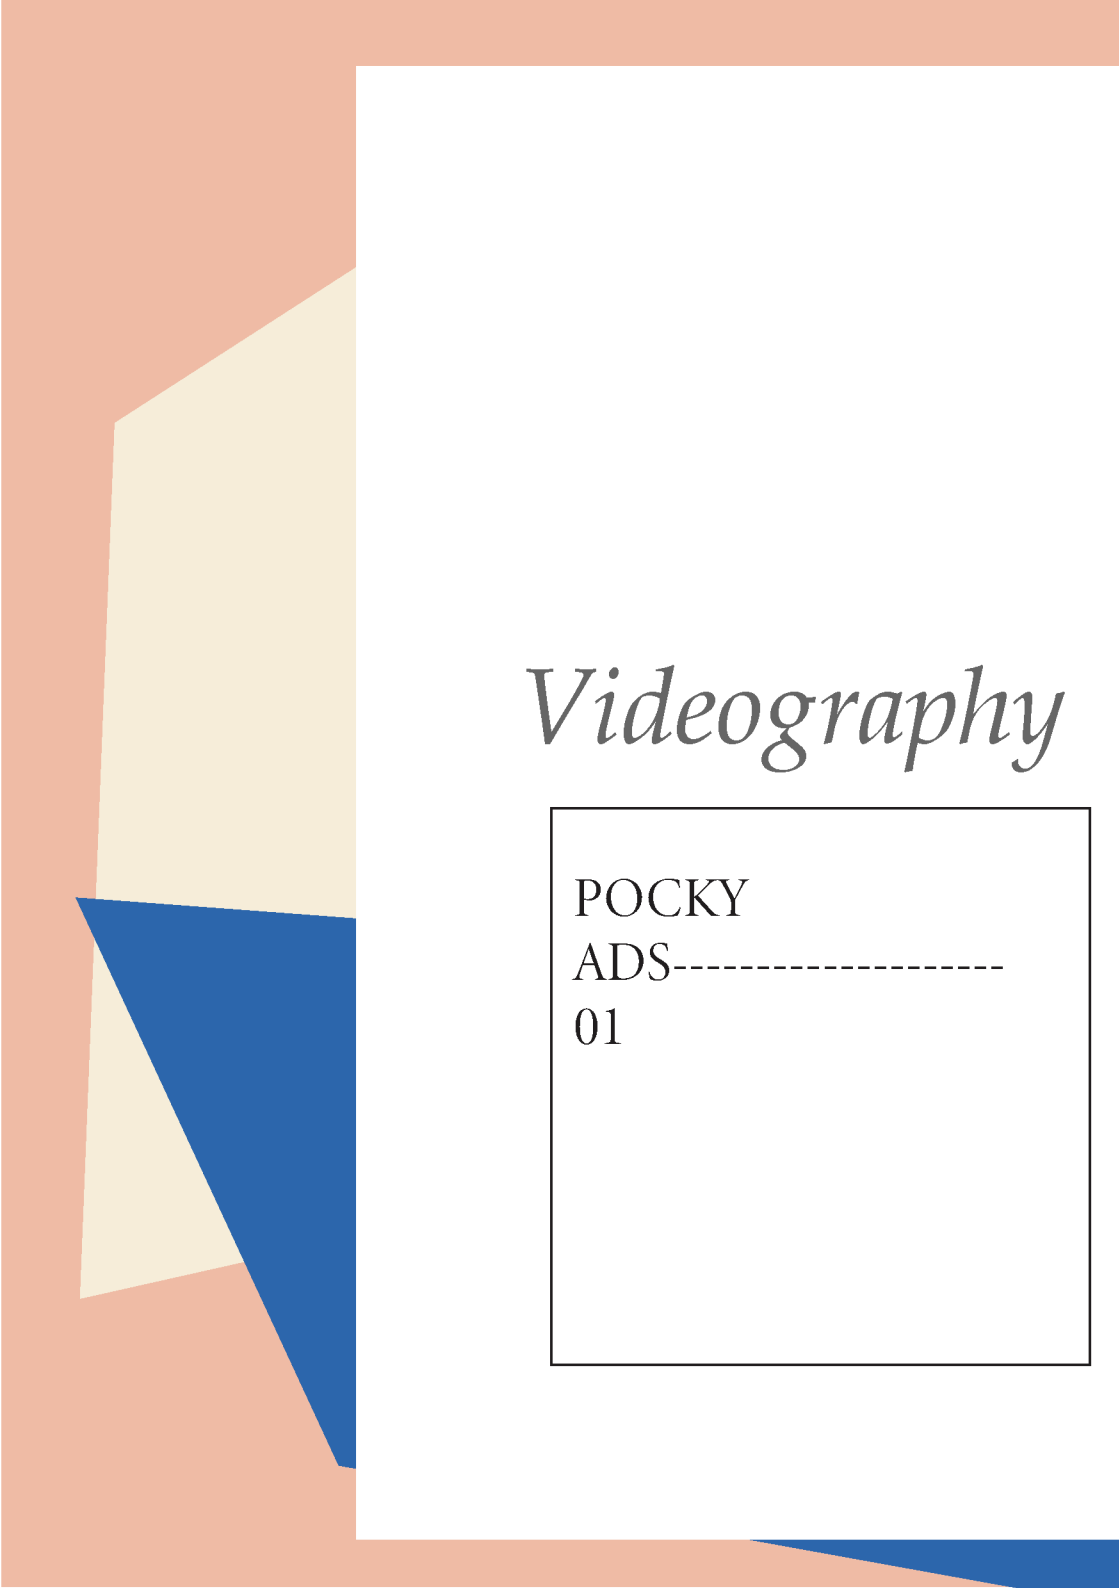

The overall style of the story is portrayed by the use of brush strokes and a paper texture.
